Timeline

Draft revised Environmental Improvement Plan structure

Introduction	Why the goal is important, including cross-cutting policy and co-benefits
What actions have been taken since 2018 and what have we achieved?	Significant actions government has taken since the 2018 25YEP
Long term targets and/or outcome indicator framework	How the proposed target is right for addressing pressures/achieving environmental outcomes
Interim targets (where relevant)	How interims contribute to long term goal trajectory and how they fit with the outcome indicator framework
Delivery plans	Policies in train over the next 5 years and how they will deliver the targets/goals, as well as cross-cutting policy levers, and high level long-term strategies/plans beyond 5 years
