

ADEPT Waste Working Group meeting notes October 2023

The Waste Group hosted a workshop event on 11th October 2023 to consider emerging themes in waste and how ADEPT should seek to influence policy in these areas. The 4 themes were: Waste in the Emissions Trading Scheme (ETS); Circular Economy; Non Tonnage Metrics; and Persistent Organic Pollutants (POPs). The workshop outcomes will help to inform ADEPT's updated Waste and Resources policy position statement.

The next meeting of the Waste Working Group will be held on 13th December 2023 on MS Teams and will include Prevention of Charging for DIY Waste; EPR; ETS and a DEFRA update on Collection & Packaging Reform.
